Re: Medical & Injury Update - WBO Flyweight Champion Jesse Rodriguez

Dear Mr. Hearn:

On April 11, 2023, this Committee issued an interim medical certification letter ordering the above-referenced fighter to submit his physician and/or specialist report pertaining the injury suffered (broken jaw) during his bout against Cristian Gonzalez on April 8, 2023. In compliance with the foregoing order, Matchroom's Kevin Rooney provided the medical documents confirming the injury in question and the fighter's prognosis.

Notwithstanding the above, we are hereby ordering Jesse Rodriguez to submit within 5 days upon issuance of this notice letter (i) a prognosis of his current injury and recovery progress; and (ii) medical certification from his specialist as to when can Rodriguez return to active competition (fighting professionally).

Failure to comply with these provisions will result in the Committee proceeding pursuant to WBO Regulations of World Championship Contests.

Lastly, this Committee reserves the right to issue all further rulings deem necessary, helpful, and convenient to accomplish the purposes, policies, and intent of the WBO rules, including serving those interests that best serve the WBO Flyweight Division.

Yours Truly,

Luis Batista Salas, Esq.
