

Dear All,

We write to you on behalf of WBO World Welterweight Champion, Sandy Ryan, following her unification contest against Jessica McCaskill (WBC & WBA World Champion) on September 23rd in Orlando, Florida.

On behalf of Sandy Ryan, we wish to formally protest the scorecards of judges Mark Streisand, who worryingly scored the contest 97-93 in McCaskill's favour and Barry Linderman who scored the contest a 95-95 draw. In actual fact, in normal circumstances, we would have also raised concerns over the scorecard of judge Michael Ross who scored the contest 96-94 in Sandy Ryan's favour, as we believe this scorecard also didn't truly reflect the justified result of the contest.

Quite literally, the entire boxing world believed Sandy Ryan won the contest in dominant fashion. In reality, we and the boxing public believe it would have been unjust to score more than 2 or 3 rounds in McCaskill's favour, so for the judges to score the contest in the manner they did, is simply unjust and extremely unfair.

We strongly believe that decisions and scorecards such as this instance, are seriously damaging to boxing and brings our sport into disrepute. Furthermore, when appropriate actions are not taken following such poor decisions, this brings the sport of boxing into further disrepute.

After all the sacrifices endured to both winning the WBO World Title and then to unify in just her 8th pro contest, we believe it is extremely unfair and unjust for Sandy Ryan to not be rewarded for all the hard work and sacrifice due to shockingly incorrect scorecards.

Therefore, given the controversial nature of the decision, **we respectfully request that the World governing bodies collectively immediately orders a rematch between Jessica McCaskill and Sandy Ryan.**

To support our protest, we have attached a document containing just a small number of the online reactions from the boxing world towards the decision. Additionally, please see below two news articles from ESPN and [Boxingscene.com](https://www.boxingscene.com) outlining the controversial nature of the result:

We have also copied all the supervisors into this email, who were there to witness the contest in person, who we are sure would all be willing to support this request of ours.

We look forward to hearing back from you on this request.

Yours sincerely,

Tom
